EQUIPMENT MANUFACTURERS

Equipment Safety Videos, Safety Manuals and Safety Training Programs Available from Association of Equipment Manufacturers

AEM – the Association of Equipment Manufacturers – provides trade and business development services for companies that manufacture equipment, products and services used worldwide in the construction, agricultural, forestry, mining and utility fields.

AEM's videos, manuals and training programs provide an easy and cost-effective way to help promote safety in today's working environment. The materials help operators, maintenance personnel and others on the worksite be more productive, minimize downtime due to accidents and lessen repair costs due to improper maintenance.

AEM safety materials outline daily situations faced on the worksite, presenting safety "do's and don'ts" in clear language and an easy-to-follow format. Content includes safety tips concerning the worksite and equipment, start up and shut down as well as operation guidelines, and equipment maintenance hints.
